

The High Cost of Data Management Churn

A New Way Forward with the elluminate Clinical Data Cloud

The elluminate Data Central workbench helps data management unify all data sources into a single source of truth.

Projects are more transferable within your teams for faster transitioning/ramp up for new employees.

Helps to document data review activities that support the data review plan.

Automated data standardization, governance and lineage is always available.

The Result

- ✓ Reduces **35%** of manual data review activities⁴
- ✓ Better Collaboration with Key Data Management Stakeholders
- ✓ Higher Quality Data Faster
- ✓ Improved DM Satisfaction & Retention
